Josh, I have been in contact with several people at GSA concerning this energy/funds saving effort - no success yet. Time to turn the heat up. Also, thank you for sending this flier. I will include it with my request for assistance.

> On May 26, 2016, FEMP issued a Funding Opportunity Announcement (FOA) on the EERE Exchange titled "Assisting Federal Facilities with Energy Conservation

Technologies (AFFECT) 2016."

The AFFECT FOA (DE-FOA-0001574) will provide grants to federal agencies to establish a program that provides an effective agency process to utilize the ENABLE-ESPC and for subsequently applying the process to identified energy savings projects. The ENABLE contract is a streamlined ESPC for small sites that is limited to the following five types of energy conservation measures: lighting; water; controls for heating, ventilation and air conditioning (HVAC); replacement of HVAC equipment and solar photovoltaics (PV). The anticipated total funding level for AFFECT is $3.0 million, with anticipated funding per award to be between approximately $200,000 and $1 million.

Letters of intent (LOI) are due by June 27, 2016, and full applications are due by July 27, 2016. Applicants must submit a LOI to be eligible to submit a full application. To apply to AFFECT, applicants must register with and submit application materials through the EERE Exchange. Send direct questions regarding this FOA to FOA.AFFECT3@ee.doe.gov.

Updated information will be posted on the AFFECT page on FEMP's website as it becomes available. An informational webinar on the AFFECT FOA will be held on June 8, 2016. Click here to register for the webinar.

If you would like to unsubscribe from training and information e-mail updates from FEMP, please send your request to femphelp@ee.doe.gov with the subject line of "Unsubscribe" and you will receive an e-mail response within a week. For other general FEMP questions, please contact FEMP_Communications@ee.doe.gov.
